

LUÃ BRAGA

SOFTWARE ENGINEER

ABOUT ME

A determined and focused person. During my journey, I have learned all technology has their worth. This is the reason I am always out of my comfort zone in order to challenge myself to be learning and building useful applications, following good practices and design pattern to write a clean, reusable and readable code.

EDUCATION

Universidade Estácio de Sá

2016 - 2018

SOFTWARE ENGINEERING

A postgraduate degree which allowed me to improve my knowledge in strategic IT management, with a deep understanding of the software creation process. It also introduced me to the use of good practices and an in-depth study of agile and traditional methods.

Universidade Estácio de Sá

2009 - 2013

SOCIAL COMMUNICATION: MULTIMEDIA

A bachelor's degree in multimedia which gave me knowledge and mastery in the process of creating and producing material for graphic design, photography, audio, video and web combining the technical domain with the study of social communication.
